Depending on the amount of coverage you elect, you and/or your spouse or domestic partner may be required to provide Evidence of Insurability (EOI).

Your age when you die	Benefit amount
Employee coverage*	1x to 8x benefits base pay rounded to the next higher \$1,000 if not already a multiple thereof (up to a maximum of \$6 million). Coverage is reduced by 50% the first of the year following your 70th birthday.
Spouse or domestic partner coverage	Choose from these benefit amounts:
Spouse or domestic partner coverage cannot exceed 100% of an employee's total life insurance coverage.	• \$25,000 • \$50,000 • \$75,000 • \$100,000 • \$150,000 • \$200,000 • \$250,000

Coverage can be through you or your spouse or domestic partner or a combination of the two of you, so long as no person is covered more than once, including your dependents. A domestic partner must be enrolled in order for a domestic child to be enrolled in dependent child coverage.
Benefits base pay	Benefits base pay means your base annual earnings, including any before-tax contributions you make through the benefits program. This does not include any overtime pay or bonuses. For certain benefit rate calculations, your benefits base pay is determined in either September, your date of hire, or your transfer date, whichever is later.

* If both you and your spouse or domestic partner are Baker Hughes employees, each of you can be covered only once under the Supplemental Life insurance plan. Coverage can be through you or your spouse, so long as no person is covered more than once.
